

Touch-Plate Upgrade Options

Legacy Touch-Plate (1946-1985)

-no circuit boards

CPS/RCP SYSTEM (1985-2000s)

-PL relays that plug in to a circuit board

ACES Systems (1990s-2000s)

-4 channel relay/dimmer modules that plug into a control board

Time-Keeper Programmable Systems (2000s-current)

-Used with control/relay boards and either analog or digital switches

ZoneZ Universal Relay -Full panel or combo kit -20 amp relays -Controls 8 circuits on each set of boards
-Simple ON/OFF control -Pilot light functionality

ZoneZ Universal Dimmer -Full panel or combo kit -2 amps per channel -Controls 8 circuits on each set of boards
-Simple ON/OFF control -Simple dimming (longer button presses to dim up and dim down) -Pilot light functionality

Calypso Nextgen Relay -Full panel or combo kit -Larger control board size -25 amp industrial UL relays
-Controls 8 circuits on each set of boards -Simple ON/OFF control -Some grouping functions -Pilot light functionality

Soluxe Universal Relay w/ Time-Keeper -Full panel or combo kit -20 amp relays -Controls 8 circuits on each set of boards
-Fully programmable through Time-Keeper -Scenes, timed events, sequences, grouping, etc.
-Optional Web Interface for smart control

Solare Universal Dimmer w/ Time-Keeper -Full panel or combo kit -2 amps per channel
-Controls 8 Circuits on each set of boards -Dim cycle or dim to level -Fully programmable through Time-Keeper
-Scenes, timed events, sequences, grouping, etc. -Optional Web Interface for smart/web control

Soluxe Universal Relay **w/ Time-Keeper**

-Full panel or combo kit
-20 amp relays
-Controls 8 circuits on each set of boards
-Fully programmable through Time-Keeper
-Scenes, timed events, sequences, grouping, etc.
-Optional Web Interface for smart control

Solare Universal Dimmer **w/ Time-Keeper**

-Full panel or combo kit
-2 amps per channel
-Controls 8 circuits on each set of boards
-Dim cycle or dim to level
-Fully programmable through Time-Keeper
-Scenes, timed events, sequences, grouping, etc.
-Optional Web Interface for smart/web control

Other Options

- ZoneZ Minis**: 15 amp relays, small footprint for tight spaces, simple ON/OFF control
- ZoneZ/Solare Lite Dimmers**: 1 amp per channel/4 channel dimmers, can be used for basic or programmable systems for smaller lighting loads
- Solare Phase Dimmers**: 5 amps per channel/4 channel dimmers, can be used for basic or programmable systems for larger lighting loads
- Single Relay/Dimmer Packs**: for isolated loads or supplemental circuits

Calypso Prime w/ Time-Keeper

-Full panel or combo kit
-25 amp industrial UL relays
-Controls 8 circuits on each set of boards
-Fully programmable through Time-Keeper
-Scenes, timed events, sequences, grouping etc.
-Optional Web Interface for smart/web control
